Kampas Business Model

A sustainable student platform for UEAB Baraton

CURRENT STATUS
Free student platform. No confirmed revenue or signed agreements; every stream below is a proposal to validate.

POSITIONING Kampas is the one campus companion for UEAB students: timetable, map, housing, study resources, campus life, alumni mentorship and lost-and-found in one place. **Free for students, funded by those who benefit from reaching them**: UEAB, verified landlords and clearly labelled campus partners.

USERS	VALUE THEY GET	WHO PAYS	REVENUE STREAM (PROPOSED)
UEAB students Primary users	Dashboard & timetable; campus map and venue navigation; off-campus housing discovery; notes, past papers & study groups; events, clubs, mentorship, careers; lost-and-found	FREE **Students do not pay**	Free core experience; no student fees or data sales proposed
Student groups & clubs Clubs, societies, events	Reach members, recruit and promote campus events to the whole student body	PROPOSED **Sponsors (groups stay free)**	Clearly labelled sponsored events and club promotions
Alumni & mentorship Graduates, mentors, mentees	Alumni mentor current students and share career advice; students find mentors and alumni-linked opportunities	PROPOSED **Employers (alumni use free)**	Labelled career and opportunity postings; optional employer-sponsored mentorship drives
Landlords & property owners Off-campus housing	Direct contact with students searching for housing; trust badge for checked listings	PROPOSED **Landlords (optional)**	Basic listing stays free; optional paid verification or featured listing
UEAB & campus administrators University, departments	Wayfinding, events reach, lost-property handling and alumni engagement in one tool; anonymised, aggregate usage insight only	PROPOSED **University of Eastern Africa, Baraton**	Annual institutional licence plus support and onboarding agreement
Campus-area businesses Services & employers	Visibility to students for local services, internships and jobs	PROPOSED **Local services & employers**	Labelled promoted services or sponsorships, kept out of notes and lost-and-found

HOW IT SUSTAINS ITSELF (cost coverage, in order of reliability)

1. Free student core
Builds the trust and daily use every other stream depends on.

2. UEAB licence & support
Predictable funding for hosting, maintenance and support.

3. Landlord verification
Fees cover the real work of checking listings; grows with listings.

4. Labelled sponsorship
Variable top-up. Capped, clearly marked, never inside the core.

KEY ONGOING COSTS

- **Hosting** and domain
- **Maintenance** and development
- **Student support** and moderation
- **Data security** and privacy compliance
- **Listing and content verification** (housing, notes, lost-and-found)
- **Campus map and venue data** upkeep

TRUST GUARDRAILS

+ **No sale of student personal data**, ever
+ Students never pay for core features
+ Sponsored items always labelled; no ads in notes or lost-and-found
+ Payment never changes verification results
+ UEAB sees aggregate, anonymised insight only

ASSUMPTIONS TO VALIDATE

? UEAB sees enough value to fund a licence
? Landlords will pay for verification; test price points
? Students accept labelled sponsors
? Active student use is high enough to matter
? Real cost levels, once measured

Test via a UEAB pilot, landlord interviews, a student survey.

Kampas · University of Eastern Africa, Baraton (UEAB), Nandi County, Kenya. Features as described by the project team. All revenue streams are proposals; no market-size or financial projections are claimed.
