Kampas

The campus, in one place.

An offline-first student platform for the University of Eastern Africa, Baraton: timetables, maps, housing, study, community and lost and found in one installable app.

Becky Cherop · Jacob Sihul · Nathan Kimutai · Thabita Jeptoo

ISC Digital Build-Off 2026 · Team TheAonix

THE PROBLEM

Scattered Campus. Missed Lectures.

Timetables, venue changes and notices live on notice boards, WhatsApp groups and PDFs. Past papers sit in personal drives.

The Gap

Missed lectures, CATs and exam clashes from late venue changes

Freshmen lost on a large campus with no digital map

Portals that fail at peak hours on weak data

Timetable chaos

Last-minute venue changes and clashes go unnoticed.

Lost on campus

No indoor signage and no digital campus map.

Housing brokers

Fees for unverified rooms, with no proof of water or security.

Weak bandwidth

Heavy web portals fail when the network is congested.

THE SOLUTION

Kampas

From scattered notices to one clear plan.

An installable web app that brings navigation, timetables, housing, study resources, community and lost and found together, built around how UEAB actually runs.

The campus, in one place.

Offline-first

PWA, cached assets, local storage and a text-only low-data mode

Built for UEAB

33 real venues, a Sabbath-aware timetable and local housing areas

End to end

Plan, navigate, live, study, connect and recover in one app

CORE PLATFORM FEATURES

Six tools. One mission: a smoother campus day.

01 Timetable and Alerts

Week, day and list views, clash detection, venue-changed badges, ICS export and photo scan.

02 Campus Map

33 UEAB locations, category filters, door photos and walking directions with time.

03 House Find

13 listings, filters for rent, water and Wi-Fi, a 3-way compare and a roommate board.

04 Share Hub

Notes and past papers with ratings, class-rep approval and study groups.

05 Community

Events with RSVP, clubs, alumni referral pitches and internships.

06 Lost and Found

Camera-first reports, verification questions and automatic match suggestions.

Plus a home dashboard, notices, global search and a feedback portal. Demo: youtu.be/oVPTXHhnves

WHO IT SERVES

Every Baraton Student, One App

Eight roles share one platform, each with the permissions it needs.

33 UEAB locations mapped

13 off-campus listings

8 user roles

Roles and what they do

Student	All core modules
Lecturer	Venue changes, notices, approvals
Class Rep	Approves study documents
Club Officer	Creates and manages events
Alumnus	Referrals and mentoring
Employer	Posts internships
Staff	Clearance notices, claims
Admin	Full control and audit logs

Venues and coordinates are real. People and listings are sample data.

BUSINESS MODEL

Students free. Partners pay.

Proposed

University licence

Annual campus licence for notices, timetable and venue-change tools.

Proposed

Verified listings

Small fee for a verified badge on landlord listings.

Proposed

Promoted opportunities

Employers and alumni promote internships and attachments.

Pilot

Costs

Free tiers (Vercel, Supabase, Clerk) in the pilot, paid tiers as usage grows, plus domain and part-time moderation.

No FinTech

No payments handled

Kampas does not process payments, so no FinTech licence is needed.

GO-TO-MARKET STRATEGY

Class reps first. Campus-wide next.

Stage 1

Class reps

A champion in each school, using Kampas for their class.

Stage 2

Clubs and societies

Events and RSVPs bring members in.

Stage 3

Orientation week

Live demos and install help for every new student.

Stage 4

Campus-wide

University notices and venue changes run through Kampas.

Key channels to the first 100 users

QR posters at the library, hostels and Baraton Centre · Student Guild housing liaison · class WhatsApp groups · club leaders

TECH STACK AND ROADMAP

Built to work on weak data.

Frontend	React 19, TypeScript, Vite, Tailwind v4
Maps	Leaflet, OpenStreetMap, OSRM walking routes
On-device AI	Tesseract.js timetable OCR
Database	Supabase schema and RLS, ready
Auth	Clerk ready, 8 roles
Hosting	Vercel, installable PWA

Expansion roadmap

- **Done** Working prototype with 8 roles
- **Next** Connect Supabase and Clerk
- **Then** Landlord portal for vacancies
- **Then** Push alerts for venue changes
- **Later** Registrar timetable integration

Vision: one trusted app for every UEAB student, from first day to graduation.

TESTING AND RISKS

Tested with students. Honest about risks.

Housing on mobile

Too many taps. We added filter pills and call buttons.

Adventist calendar

We added Friday vespers and Sabbath services to the timetable.

Data privacy

Kenya Data Protection Act, 2019. Location stays on the device.

Security next

Demo login is local. Clerk and Supabase security rules come before launch.

Content risk

Moderated uploads, class-rep approval, reporting tools and an audit log.

Dependencies

Public map and routing servers may be rate limited, so plan a hosted fallback.

MEET THE TEAM

Team TheAonix

ISC Department, University of Eastern Africa, Baraton

Becky Cherop

Frontend and UI

SKIPCH2511

Frontend and UI: map, timetable, housing, lost and found.

Jacob Sihul

Team Leader

SSIHOT2511

Roles, permissions, auth flow and service layer.

Nathan Kimutai

Database

SKIMNA2511

Supabase schema, security policies and seed data.

Thabita Jeptoo

DevOps and QA

STHAJE2511

GitHub workflow, Vercel deployment and testing.

The campus, in one place.

BRING KAMPAS TO BARATON

The campus, in one place.

We are seeking a university pilot, class-rep champions and verified landlords to take Kampas from prototype to every student's phone.
